

# Dynamic Microscopy 2004

December 9/10, 2004

## December 9

Lectures from internationally renowned speakers:

- Gerhard Schütz, University of Linz, Linz, Austria
- Manuela Zacco, University of Padova, Padova, Italy
- Tomasz Zal, Scripps Research Institute, La Jolla, USA
- Martin Heisenberg, University of Würzburg
- Katarina Wolf, University of Würzburg
- Jeff Segall, Albert Einstein College, New York, USA
- Aladar Szalay, University of Würzburg

## Keynote Lecture:

- Jennifer Lippincott-Schwartz, NIH, Bethesda, USA:  
How proteins move in cells:  
visualizing protein dynamics and function  
through photobleaching and photoactivation

## December 10

Practical Course:

- Fluorescence Recovery After Photobleaching (FRAP)
- Single-molecule Fluorescence Microscopy
- Dynamic Fluorescence Confocal Microscopy
- Multiphoton Microscopy
